Dear Mark

NI Network Gas Transmission Code Modification No 1

Thank you for your recent submission of the Final Modification Report (FMR) in respect of the above named proposal. The purpose of the modification is to incorporate new rules for a Capacity Conversion Service, as required by Article 21 of the revised CAM Regulation 2017/459.

Authority review and conclusions

The Utility Regulation has considered the issues raised by this FMR. We note that there was only one response received during the consultation period. We have considered whether the proposal would better facilitate the 'relevant objective'.

Decision

As provided for in condition 2.4D.9(c) of the relevant licences we direct the Transporter to implement the modifications as set out in the FMR No 1 dated 13th December 2017. The modifications should become effective as set out in the FMR.

Yours sincerely,
