

FORECAST ANNUAL RECONCILIATION PAYMENT

Q2 GAS YEAR 2022/2023

Forecast Annual Reconciliation Payments

- GMO NI are providing information on the actual licence revenue collected in the gas year to date and an estimate of the annual reconciliation payment due to/from Shippers to aid Shipper planning and budgeting during the gas year.
- This information is published on the GMO NI website in the month following each gas year quarter and is based on the following assumptions.
- Assumptions:
 - Forecast Required Revenue (FRR) of TSOs equal Actual Required Revenue (ARR) of TSOs
 - Shippers actual capacity and volumes for the remainder of the gas year are in line with their forecasts
 - No auction premium charges are incurred for the remainder of the gas year
 - No entry overrun charges are incurred for the remainder of the gas year
